TON'S ISLANDS .- Capt. Pendleton, of the bark Sarah at Hampton Roads January 27th, from Johnston's Islands, with a cargo of Guano, says of these islands. There are two of them lying E N E and W S W of each other about a mile apart, the larger or western island, situated in lat 16 46 N, long 169 26 stains about 50 acres, and the other about 30 acres. The contains about 50 acres, and the other about 50 acres. The e island is covered with guano of a good quality, to the avec depth of about four feet. These islands are surrounded hank the western edge of which, from E round to SW, the large island, is bordered with a reef. This bank exthe first and the first and th is to 15 fathous of water on it, but on the western side of the said the reef approaches within one mile of the land. In running in for the anchorage, the flag staff on the large island should bear N by W ½ W, when the huts will be in range with a though there is nothing to prevent a ship from running in with the flag staff on any bearing between N and N W. The best anchorage is about ¾ of a mile from the huts S S E,

The water all around the island is alive with fish of a superior lie water at the ships going there for cargoes are provided with ing gear, their crews may, if they please, live on fish all the they hay there. The islands are covered with a wilderness airds, so if one goes ashore he is shaded from the sun by In the early part of the summer the ground-was covered with eggs so that it was difficult to walk without treading on much but now the young birds are hatched and are running

best all over the island. These islands belong to a company of gentlemen at San Fran cisto, who style themselves the Pacific Guano Company. They have built a wharf on the eastern side of the larger island 500 est in length, and laid a track from the end of the wharf up to be guano, so that with one wooden car and twelve men (the onstants of the island) they can now ship from 45 to 5 per day, but they intend to improve their facilities during

the coming winter, so that with the same crew they may ship 100 tons per day. The Sarah Park took the third cargo that had been shipped around the horn.

Our progress from October 28th to November 23d, (which found us in lat 47,0 and long 51 20 W), demonstrated the property of Lieut. Maury's sading directions for homeward bound asstralian ships. We were, on the date first mentioned, in lat 50 a 8 and long 152 50 W, and since that time we have been as r South as 57 50, thus making in 26 days 101 degrees of longi-de, and over 21 degrees of latitude, and this, too, in a deep ied, fool bottomed, badly trimmed ship, with her foremas id, as a matter of precaution, always " double reef the fore

### For Restoring, Preserving and Adorning THE HAIR!

THE GREAT PRESERVATIVE OF THE AGE NO HOME in the Tropics should be without Bo-

Prof. Anderson, in 1855, Pronounced it to be the Saver of his Hair ROYAL LYCKUM THEATER, STRAND, LONDON,

Saturday, Aug. 25th. . 255. It affords me very great pleasure to bear witness to the surprising efficacy of "Bogle's Hyperion Fluid." I had occasion to resort to it after losing so much of my hair as to be almost hald, owing to the influence of the climate, during my tour in the United States. Various much vaunted Hair Restoratives which I had already tried having entirely failed, I was advised to test the value of Mr. Bogle's preparation. I used it diligently for some time, when to my great gratification my hair assumed more than its former luxuriance. Hence I can-both from my own experience and that of my friends to whom I have recommended its use-most confidently advise the use of the "Hyperion Fluid" to all who need the use of that which shall restore, nourish, and beautify their hair. For these purposes, I am certain that it is unsurpassed and unsurpassable JOHN HENRY ANDERSON. "Great Wizard of the North."

## To the Public of Honolula.

The Agent of Bogle's Hyperion Fluid having called on me when I arrived here, I was delighted to find my old friend had preceded me (I mean Begle's Fluid.) My hair was falling off in thousands nor day a short interview with my friend bastoped the fall; a few smart rubbing operations, performed by "VOELKER," has made every bair as tast as the Hawaiian on my Magic Chair. 1. in 1859, in Honolulu, recommend it to the world as the Great Hair Preserver.
